

**LaZee Tek**

---

Hands-Free Computer Controls

FOR IMMEDIATE RELEASE

**LaZee Mouse Pro available to the Federal Government!**

Ashley, IN -- July 2005 -- LaZee Tek recently announced the addition of its premier product to a Federal Government GSA Schedule. Working with TCS Associates [www.tcsassociates.com](http://www.tcsassociates.com) has allowed the inclusion of the LaZee Mouse Pro to a GSA Schedule, which greatly simplifies the acquisition process for government agencies. An agreement has been reached between TCS Associates and LaZee Tek to facilitate this arrangement. The LaZee Mouse Pro, which is available and presently shipping, is now readily available to federal agencies by contacting TCS Associates. The President of LaZee Tek states: "We are very impressed with the track record of TCS, and the extremely professional manner in which they perform their day to day business. We believe the professionalism of both companies will complement each other in this arrangement, and ultimately benefit the customer."
